As part of the 2018 Expert Webinar Series

## **Incontinence and Voiding Dysfunction in PD**

**Presented by:**

**Sidney B. Radomski MD FRCSC**

**Tuesday, December 11, 2018  
5:00 PM EST**

Parkinson's disease can affect voiding function in both men and women, and can have a significant debilitating effect on individuals. In older males Benign Prostatic Hyperplasia also contributes to voiding problems. This presentation will discuss management of voiding dysfunction in Parkinson's disease.
