## A Treatment for Parkinson's Disease

An intestinal gel form of

# LEVODOPA + CARBIDOPA

delivered into the intestine through a tube

Pump weighs about 3 lbs

and is worn about 16 hours/day (varies by patient)

in multiple centres in Canada since 2014

patient and caregiver compliance is essential for success

#### THIS IS NOT A CURE

**NOT** Experimental · **NOT** Research

## **GOAL OF TREATMENT**

- · Smooth out medication fluctuations
- Better symptom control

#### YOU SHOULD KNOW

Like all medicines, this treatment can cause side effects, many of which can be relieved by adjusting the dose

At this time, LEVODOPA + CARBIDOPA is not covered in all provinces

### Ask your healthcare provider if this treatment is right for you
